#### Part 1

### **STEAM REGISTRATION**

Rocksmith 2014 Edition is installed through a service called Steam that's used by tens of millions of people. Steam ensures that you always have the latest complete installation files, patches, and new songs available to download.

If you do not have a disc-drive, please refer to the alternate guide posted at <u>www.rocksmith.com/setup</u>

1. Insert the disc into your drive to start. If it does not Autoplay, you can navigate to the disc drive and double-click the "Setup.exe" file in the Rocksmith 2014 folder to get started.

While a portion of the game will be installed from the disc, some amount of it will also be downloaded to ensure that the most up to date version of the software is installed.

If it is progressing slowly, we recommend leaving it on overnight to download.

#### 7. After installation is complete, go to your "LIBRARY" inside Steam. Next mouse-over Rocksmith 2014 and choose "PLAY".

#### **OPTIONAL STEP: UPLAY REGISTRATION**

Rocksmith 2014 Edition can be linked to Uplay, a service that keeps track of your personal profile and progress across all Ubisoft titles. You can also unlock additional bonus content.

8. When you click play in Steam to launch Rocksmith 2014, a dialogue box will pop up with a 15-digit key. This is the CD key you will use if you want to link your Uplay account with Rocksmith 2014. You can also retrieve this key by clicking the "CD Key" link to the right. NOTE: This is different from the key that was used for Steam.
