Troubleshooting

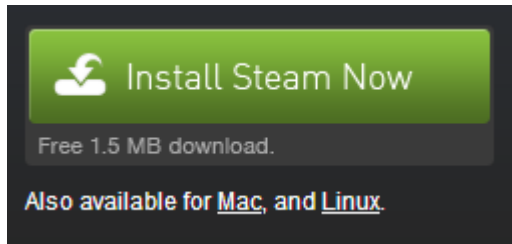

Part 1

STEAM REGISTRATION

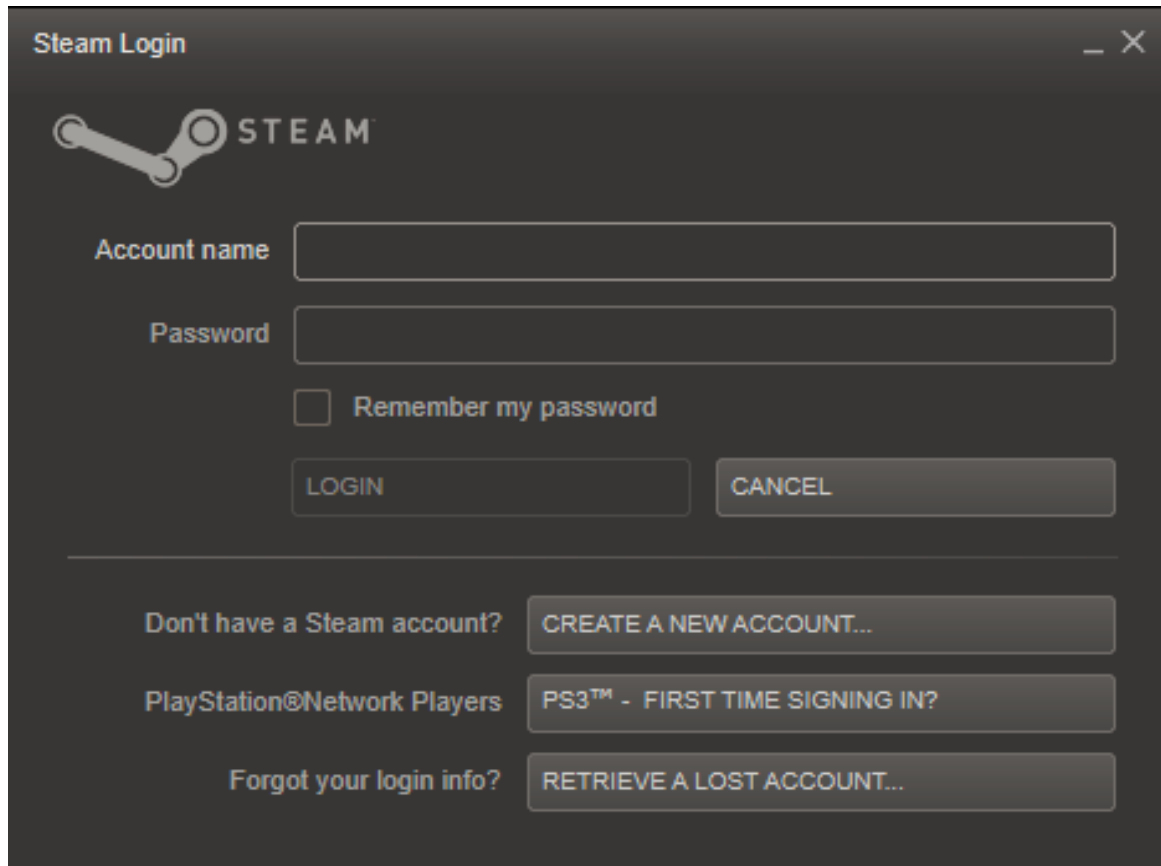

Rocksmith 2014 Edition is installed through a service called Steam that's used by tens of millions of people. Steam ensures that you always have the latest complete installation files, patches, and new songs available to download.

1. Download and install Steam from
<http://store.steampowered.com/about/>

2. After installation, launch Steam and then login or create a Steam account to proceed.

A screenshot of the Steam Login window. The window has a dark gray background and a title bar with the text "Steam Login" and standard window control icons (minimize, maximize, close). The Steam logo is positioned at the top left, followed by the word "STEAM" in a bold, sans-serif font. Below the logo, there are two input fields: "Account name" and "Password". To the right of the "Password" field is a checkbox labeled "Remember my password". At the bottom of the login section, there are two buttons: "LOGIN" and "CANCEL". A horizontal line separates the login section from the account creation section. Below the line, there are three rows of text and buttons. The first row has the text "Don't have a Steam account?" followed by a button labeled "CREATE A NEW ACCOUNT...". The second row has the text "PlayStation@Network Players" followed by a button labeled "PS3™ - FIRST TIME SIGNING IN?". The third row has the text "Forgot your login info?" followed by a button labeled "RETRIEVE A LOST ACCOUNT...".

PlayStation@Network Players PS3™ - FIRST TIME SIGNING IN?

Forgot your login info? RETRIEVE A LOST ACCOUNT...

3. Once you are inside Steam, select “ADD A GAME...” from the bottom left-corner, and then select “Activate a Product on Steam...”

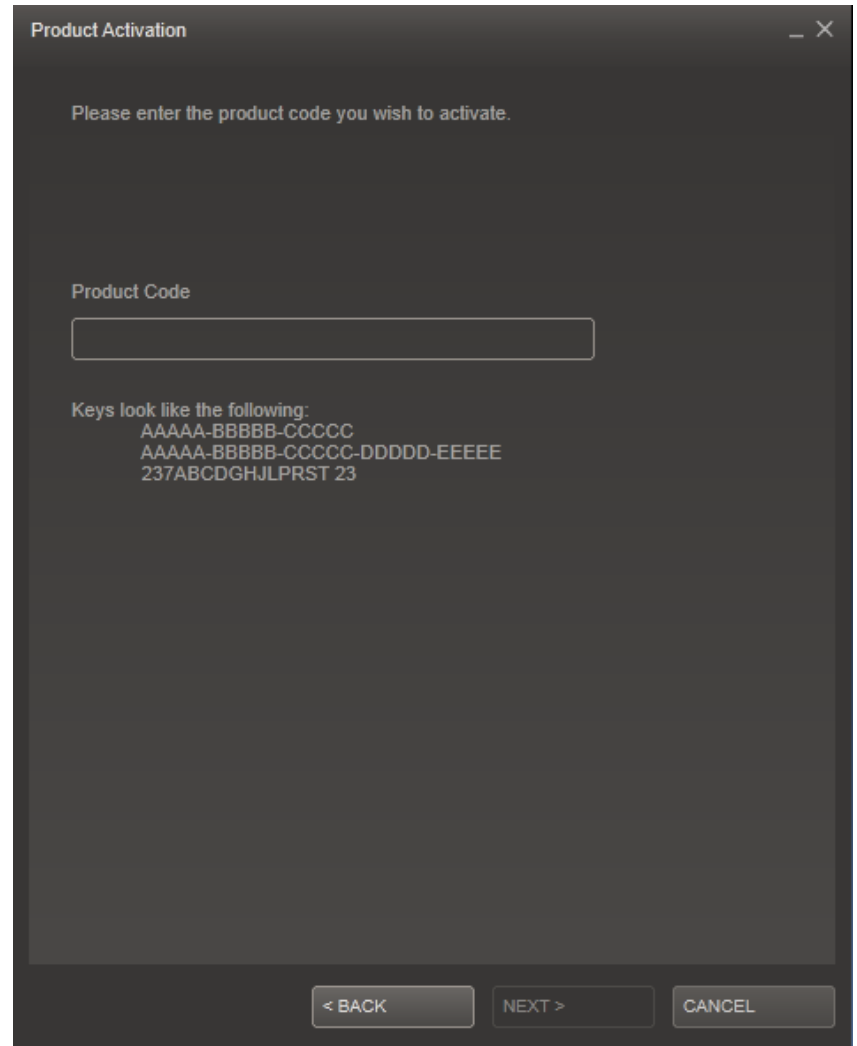

4. You will be prompted to accept the Steam Subscriber Agreement and then enter a Product Code.

Find your activation code either from where you purchased it or from the paper insert that came inside the Rocksmith 2014 case.

Enter the key exactly as shown on the insert, using all capital letters and including the dashes. It should look like this:

XXXXXX-XXXXXX-XXXXXX

5. The next screen will prompt you to install the game. Make sure you have enough free space on the disk drive. Click “NEXT” when you are ready to proceed.

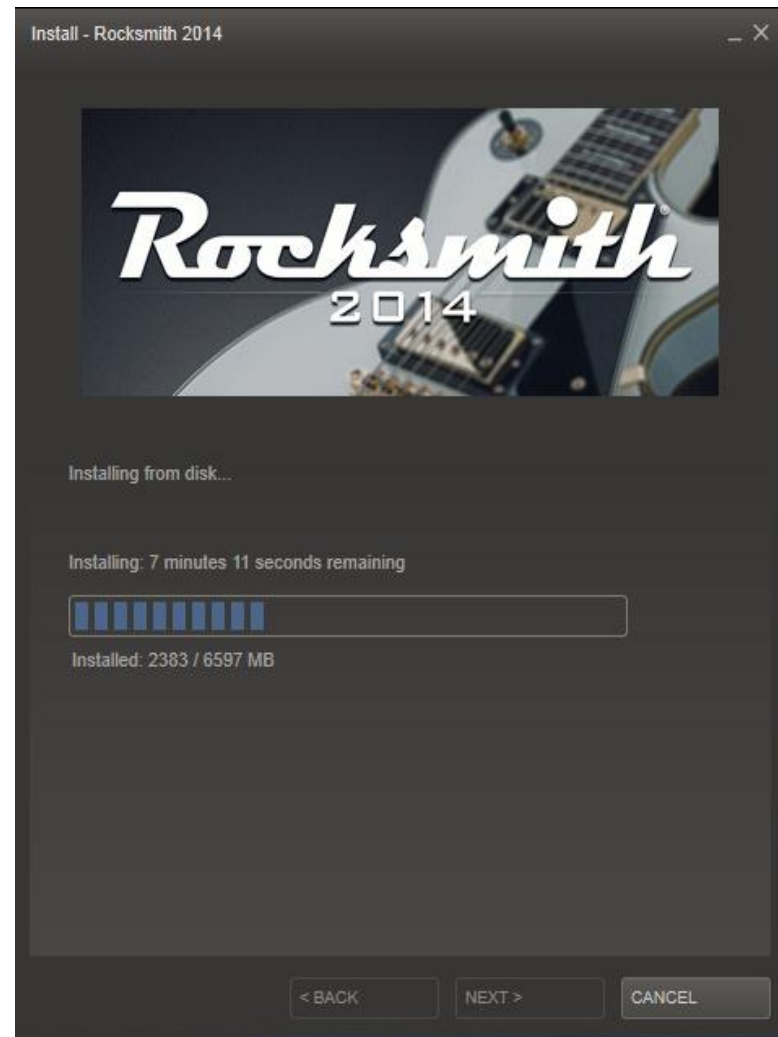

You will then be presented with the End User License Agreement and shortcut options.

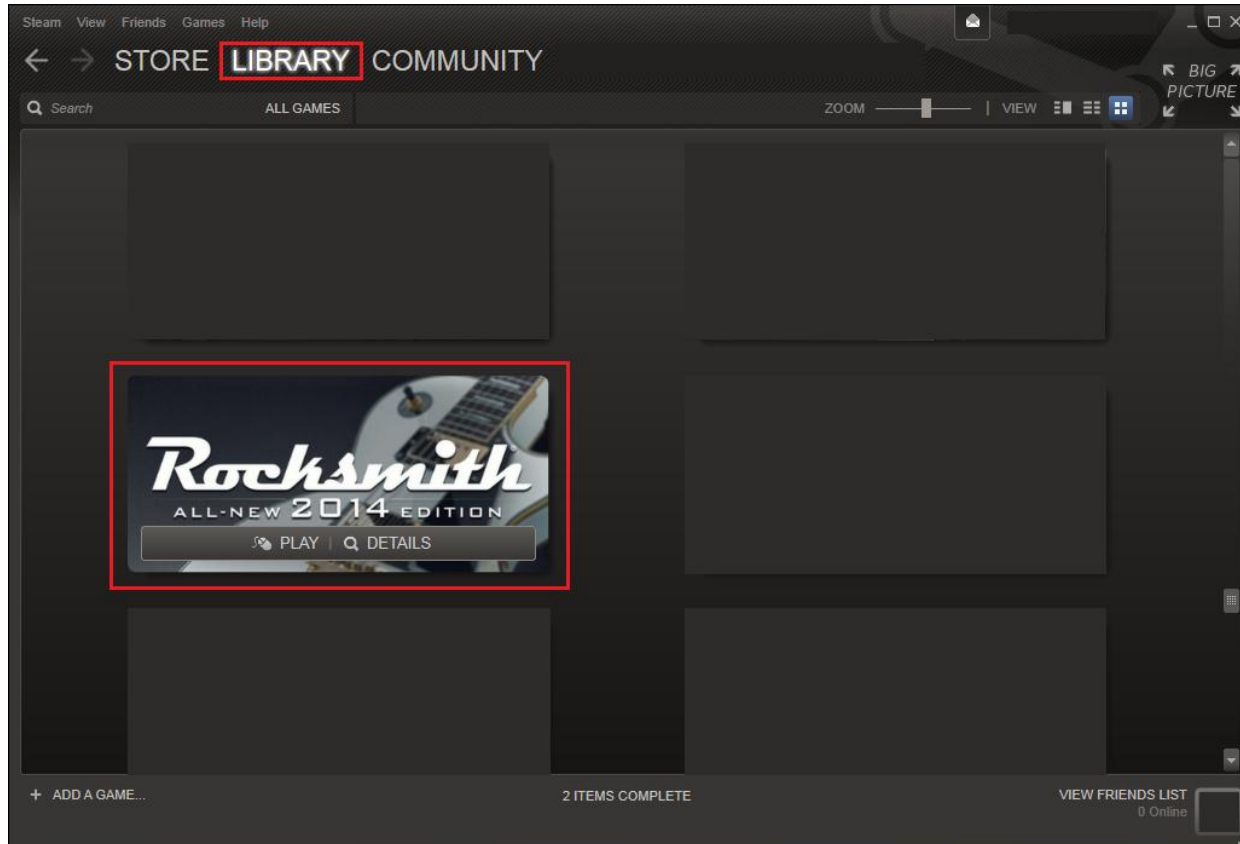

6. Rocksmith 2014 will now install. You will see a progress bar, time remaining, etc.

This software contains a lot of graphics, multimedia, and music, so the download may take quite some time depending on your connection speed.

If it is progressing slowly, we recommend leaving it on overnight to download.

7. After installation is complete, go to your “LIBRARY” inside Steam. Next mouse-over Rocksmith 2014 and choose “PLAY” .

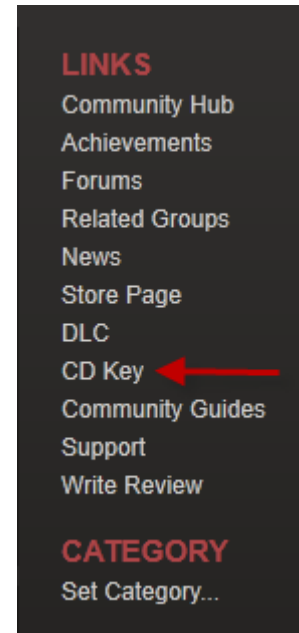

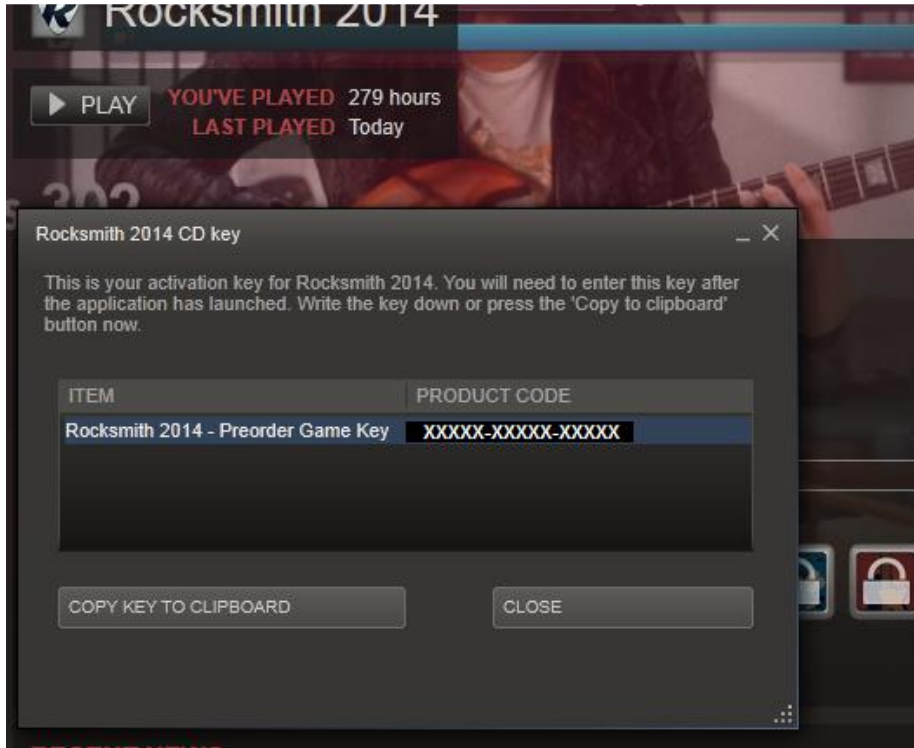

OPTIONAL STEP: UPLAY REGISTRATION

Rocksmith 2014 Edition can be linked to Uplay, a service that keeps track of your personal profile and progress across all Ubisoft titles. You can also unlock additional bonus content.

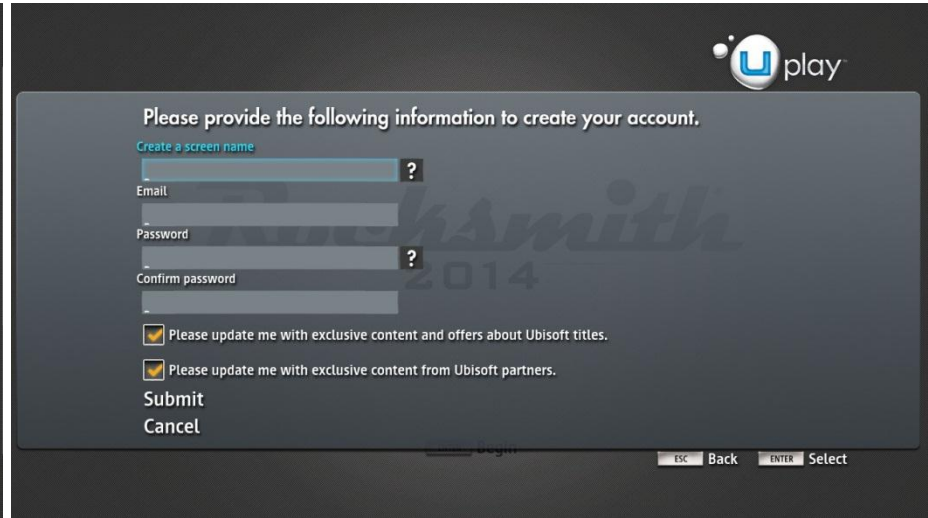

8. When you click play in Steam to launch Rocksmith 2014, a dialogue box will pop up with a 15-digit key. This is the CD key you will use if you want to link your Uplay account with Rocksmith 2014. You can also retrieve this key by clicking the “CD Key” link to the right. NOTE: This is different from the key that was used for Steam.

9. When Rocksmith 2014 starts up you'll be given the option to sign into or create a Uplay account.

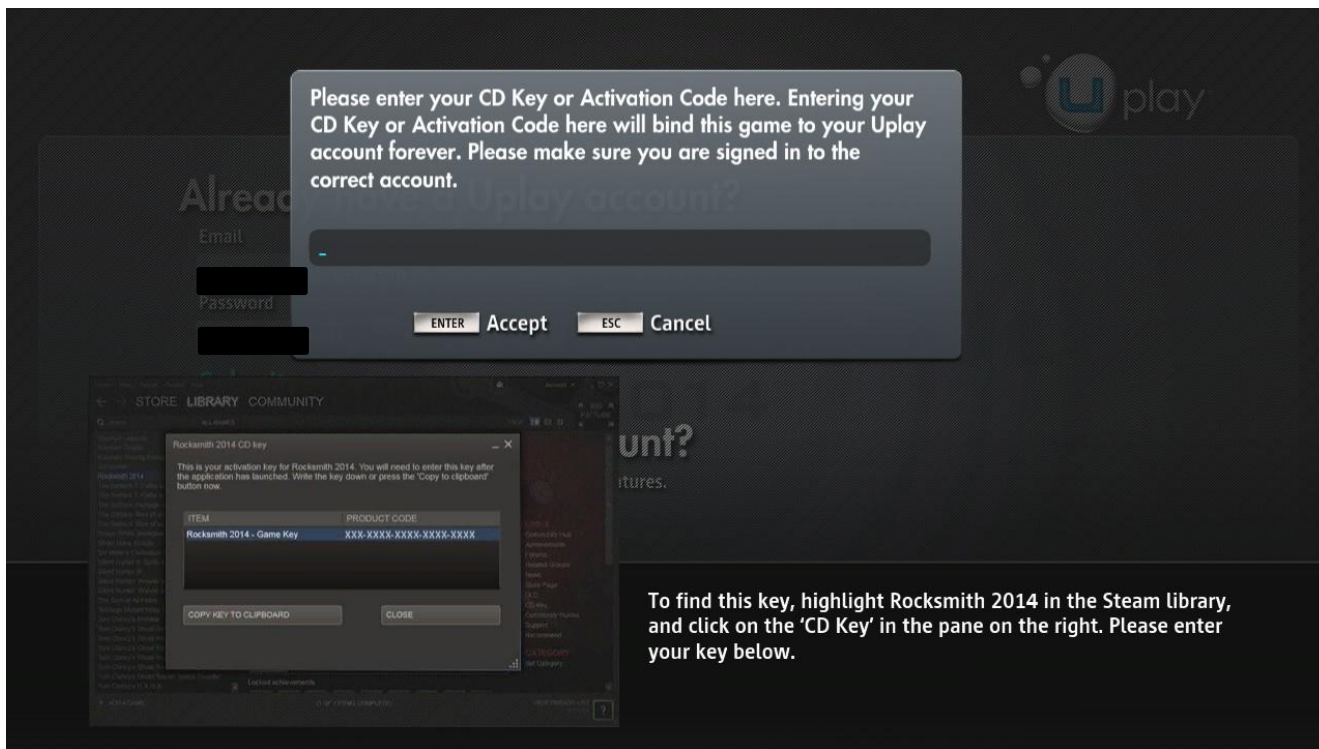

The screenshot shows the Uplay login interface. At the top right is the Uplay logo. The main heading is "Already have a Uplay account?". Below it are two input fields labeled "Email" and "Password". A "Submit" button is positioned below the fields. Below the "Submit" button is the heading "Don't have a Uplay account?" followed by the text "Register now to get access to Uplay-exclusive online features." and a "Sign-up" button. At the bottom, there are two buttons: "Begin" (with an ENTER key icon) and "Exit" (with an ESC key icon). The background features a faint "Rocksmith 2014" watermark.

The screenshot shows the Uplay account creation interface. At the top right is the Uplay logo. The main heading is "Please provide the following information to create your account." Below it is a "Create a screen name" field with a question mark icon. This is followed by "Email", "Password", and "Confirm password" fields, each with a question mark icon. Below the password fields are two checked checkboxes: "Please update me with exclusive content and offers about Ubisoft titles." and "Please update me with exclusive content from Ubisoft partners." At the bottom, there are "Submit" and "Cancel" buttons. At the very bottom, there are two buttons: "Begin" (with an ENTER key icon) and "Back" (with an ESC key icon). The background features a faint "Rocksmith 2014" watermark.

10. After signing in or creating an account you'll receive a prompt to enter in the previously displayed CD key. Steps to find the key are re-stated at this point. Remember, this is NOT the same key used to activate Rocksmith 2014 on Steam.

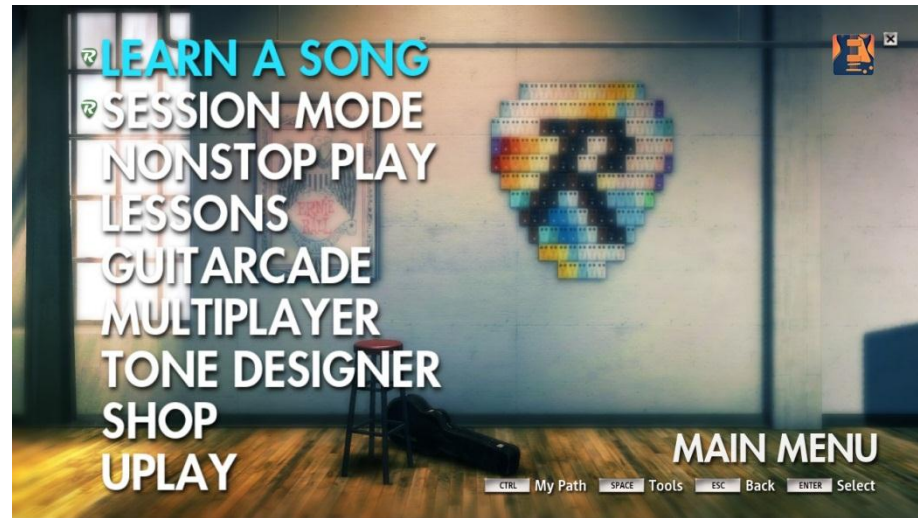

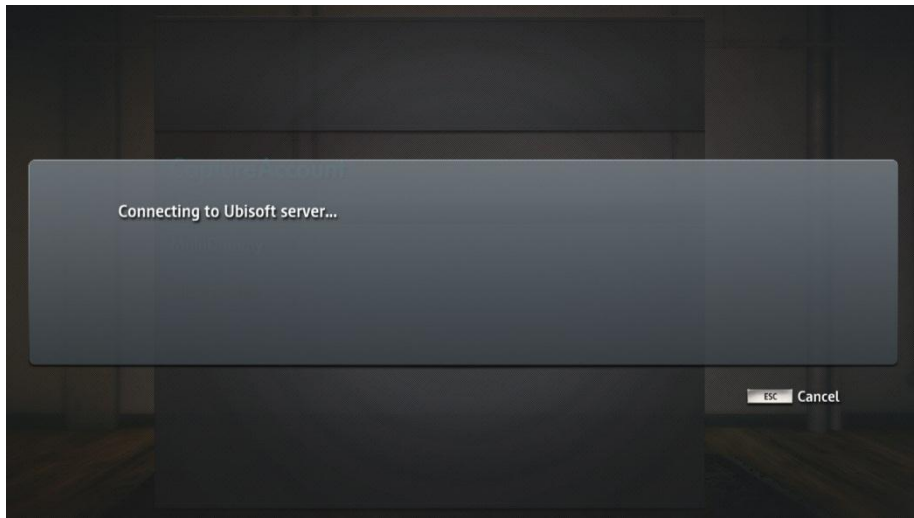

The image shows a composite of two screenshots. The top screenshot is from the Uplay account creation process, displaying a dialog box that reads: "Please enter your CD Key or Activation Code here. Entering your CD Key or Activation Code here will bind this game to your Uplay account forever. Please make sure you are signed in to the correct account." Below the text is a text input field and two buttons: "ENTER Accept" and "ESC Cancel". The background shows a partially visible login form with fields for "Email" and "Password".

The bottom screenshot is from the Steam library interface. A window titled "Rocksmith 2014 CD key" is open, containing the text: "This is your activation key for Rocksmith 2014. You will need to enter this key after the application has launched. Write the key down or press the 'Copy to clipboard' button now." Below the text is a table with two columns: "ITEM" and "PRODUCT CODE". The table contains one row: "Rocksmith 2014 - Game Key" and "XXX-XXXX-XXXX-XXXX-XXXX". At the bottom of the window are two buttons: "COPY KEY TO CLIPBOARD" and "CLOSE".

To find this key, highlight Rocksmith 2014 in the Steam library, and click on the 'CD Key' in the pane on the right. Please enter your key below.

11. After successfully linking your Uplay account to Rocksmith 2014, creating/selecting which profile you'd like to use, and connecting to Ubisoft servers, you're all set! You can begin earning Uplay rewards and tracking your playing stats!
