.MAIN CHARACTER

Name: Marcus Holloway
Age: 24

****
**

.Sense of Justice
.Ambitious and Intelligent
.Willing

Marcus has an acute sense of right and wrong, and strives to right scales of justice regardless the cost. At first, he sees it through the lens of himself, but his world view widens and comes to include the effects of an unjust system on everyone.
Marcus is driven to become one of the greatest hackers in history, regardless of the dangers and risk he needs to take.
His need for a family that appreciates him makes him care deeply about his friends. His charisma and wit make him a natural leader.
Marcus is the reflection of San Francisco culture. He's ready to try everything once. He's the first to spring into action and he isn't afraid to get in trouble.
